

OMPECO

Purpose

To **convert infected, municipal, and organic waste** to a Refuse Derived Fuel (RDF). RDF is an odourless sterile "fluff," which **can be sold, stored, or used to generate energy** while eliminating the risk of bacterial growth or viral transmission.

Effectiveness

Zero emissions process

Compacts to **50%** of it's original weight and **20%** of it's original mass

Facilities ranging from Hospitals, Humanitarian Camps, and Military Bases to Airports, Shopping Centers and Off Shore Oil Rigs **benefit equally**

Credibility

NATO Certificate Number
NCAGE AH649 QS 90001

Approved by the US
Department of Agriculture

Approved by UK DEFRA
(Dept. for Environment, Food
and Rural Affairs)
